Design Guidlines

-Follow WCAG 2.1 Level AA standards for accessibity.

-Ensure clear color contrast across brand elements, text (strong and weak), and backgrounds.

-Minimize interaction costs by reducing clicks, scrolling, and unnecessary navigation.

-Avoid distractions, redundant styles, or unnecessary form fields.

-Maintain consistency across platforms, including button states (hover, press, focus).

-Use familiar design patterns and Intuitive navigation structures.

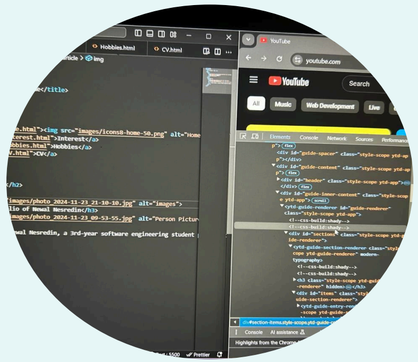
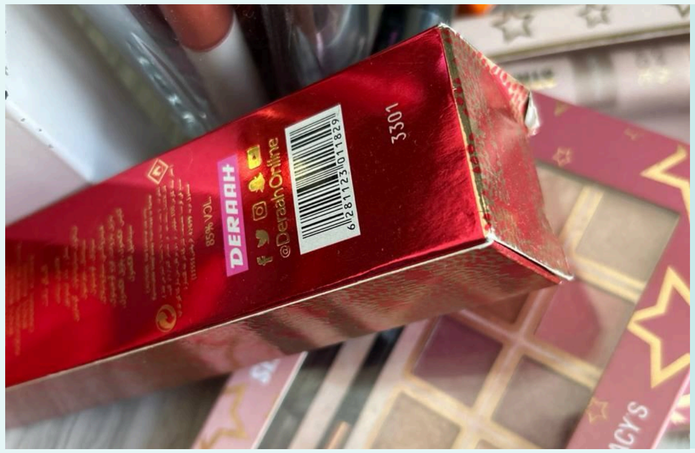
Software Engineering



Hi, I'm Newal Nesredin, a 3rd-year software engineering student passionate about learning and growing in the field. I'm exploring different aspects of development and building my skills through projects and coursework. Welcome to my portfolio, where I share my journey and aspirations as I work toward becoming a skilled software engineer!

Interest

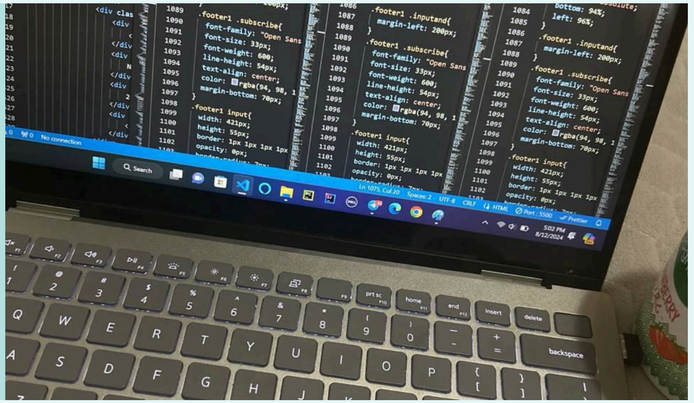


Makeup

I’ve always been interested in makeup as a way to express creativity and highlight natural beauty. I love experimenting with different looks, from bold styles to everyday glam. I’m always learning new techniques and staying up-to-date with trends, and I enjoy how makeup can boost confidence and help people feel their best.

Coding

I'm passionate about coding, which allows me to solve problems and create functional, innovative solutions. Whether building websites, developing apps, or exploring new programming languages, I enjoy the challenge of making ideas come to life through code. Coding has taught me the importance of attention to detail and continuous learning, and I love how it combines creativity with logic.



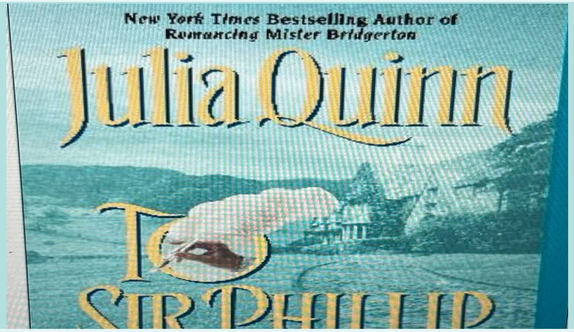
Hobbies

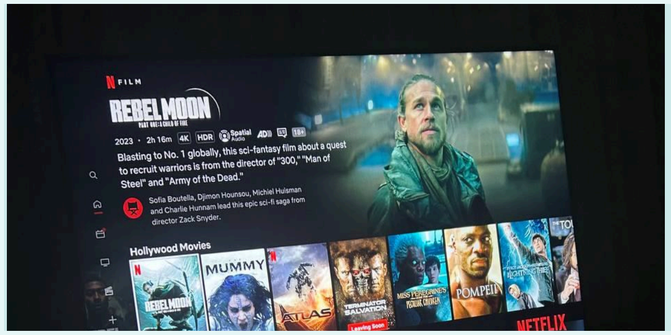
Culinary Art and Baking

Baking and culinary arts are hobbies that bring me a lot of joy and comfort. Whenever I have free time or need to unwind, I enjoy experimenting with new recipes and perfecting my skills in the kitchen. It's a creative outlet for me, and I find that cooking and baking help lift my spirits, especially when I'm feeling down. There's something about the process of making delicious food that feels both therapeutic and rewarding..

Reading

I love spending my free time reading fiction. It's a hobby that not only helps me relax but also inspires my imagination and creativity. Through stories, I get to explore different perspectives, dive into new worlds, and experience emotions and ideas that broaden my understanding of the human experience.





Movies

I enjoy watching movies in my free time, as they are a great way to unwind and immerse myself in different stories and perspectives. Whether it's a gripping thriller, an emotional drama, or a lighthearted comedy, movies offer a unique form of storytelling that captures my attention and sparks my imagination.

CV

Profile

I am a 3rd-year software engineering student with a passion for learning and exploring the field of technology. Currently building my skill set through coursework and academic projects, I am eager to gain practical experience and develop innovative solutions.

Skills

I have a foundational understanding of programming and development tools. My technical skills include basic knowledge of programming languages such as Java and Python, as well as an introduction to web technologies like HTML and CSS.

Education

Bachelor of Technology in Software Engineering
Addis Ababa University, Addis Ababa, Ethiopia
Expected Graduation: May 2027/28

"Experience is the name everyone gives to their mistakes."
